## Welcome to the UComE Online Project Management Platform

Your one-stop shop for the creation of an Action Plan for your Youth Community Engagement project  
Follow the steps to better plan, analyze and manage your youth community engagement activity!

[START BUILDING YOUR ACTION PLAN!](#)

Dear readers,

The #UcomE consortium is very happy to announce that our online project management platform is finally launched and ready to use by youth and organisations working with youth.

Do you have an idea for civic and youth engagement? Do you have one for social impact on the community? If the answer is yes, this online platform is for you: Through very user-friendly steps, you will be able to create your own action plan, and we, the #UcomE consortium having into account this plan created, will guide you through online consultation to reach your goal.

Try it out until September and make your social desires come true!

## Online transnational meeting

In May, the #UcomeE consortium conducted an online transnational meeting to review and discuss various project outcomes. The meeting focused on assessing the progress and quality of the project, as well as anticipating future deliverables. A key topic of discussion was the impact of the online project management platform and upcoming videos, which are expected to foster a community that is attentive to youth engagement and empowerment.

## Next deliveries

The outcomes that will be delivered after the summer 2023:

1. **The toolkit in community engagement** for youth organisations is composed of workshops, digital tools, and designs. It will help youth workers and youth organisations to get inspired in order to conduct a real project initiative on community engagement.

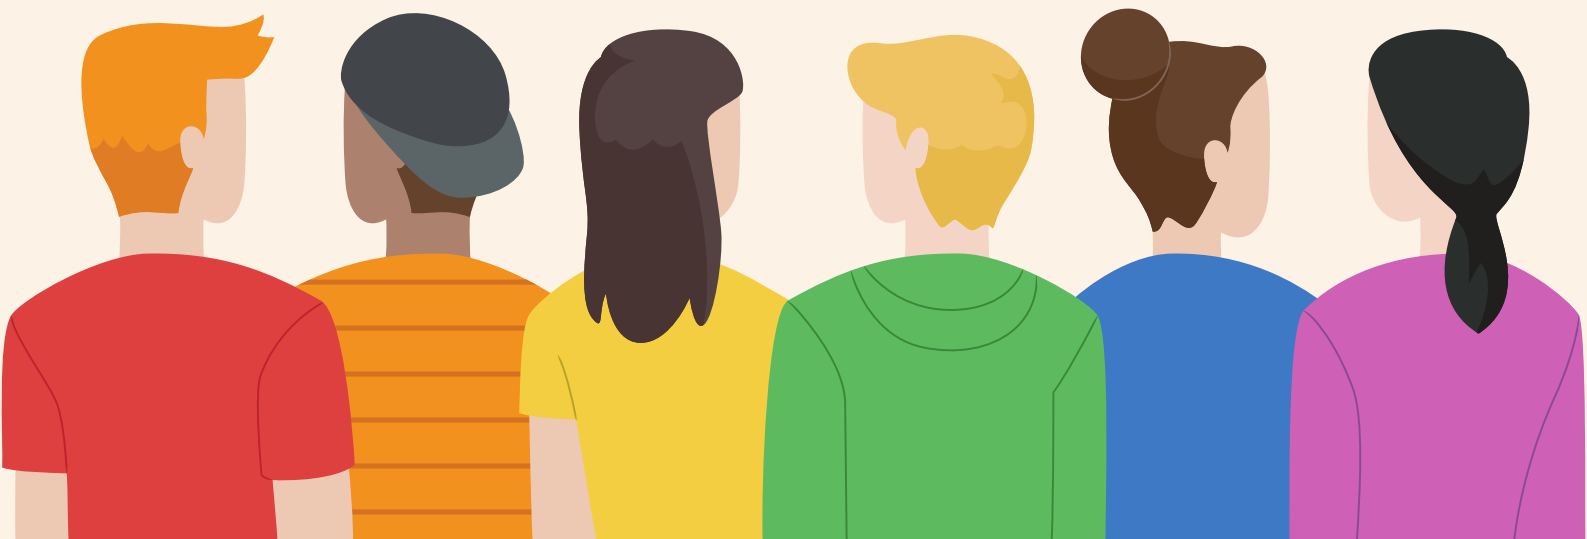

2. **Public awareness campaigns:** Through a series of videos created by the organisations participating on the management platform, we will show how the action plans affected the community.

They will be shown on our social media.
